Special Instructions: _____

DATE AND TIME OF YOUR APPOINTMENT:

Instructions for Collecting Semen Specimens:

1. Refrain from any sexual activity including masturbation for 2-3 days (no longer than 5 days).
2. The specimen should be collected by masturbation. Do not use lubricants such as K-Y jelly, because they contain preservatives that may kill the sperm. Likewise, the specimen should not be collected in a condom, because most condoms contain a spermicidal agent.
3. The specimen should be collected in a sterile container provided by your physician. The lab can also provide a sterile specimen container for you.
4. Bring the specimen to HFS Andrology Laboratory within one hour of collection. Keep the specimen at body temperature as much as possible (for example, in your shirt). If you are unable to deliver the specimen to the center within one hour, a private room is available at the center for collecting the specimen.
5. Please complete the next portion of this form and sign where indicated. Bring the completed form with your specimen to the lab.

To be completed by Patient:

Date: _____ Time Collected: _____

Name: _____ Social Security Number: _____

Address: _____ Phone Number: _____

Information about HFS Andrology Laboratory

HFS Andrology Laboratory is a laboratory in the Houston area dedicated solely to providing high quality semen testing and related services. **ALL** andrology services require the referring Physician or patient to schedule an appointment by calling **(713) 512-7600**. Written orders are required on the date of the test to ensure proper tests are performed.

We collect payment at the time the specimen is brought to the center. The cost for semen analysis is \$100.00, semen analysis with strict morphology is \$150.00, sperm wash is \$250.00, and the cost for post-vasectomy semen testing is \$50.00. You may call for pricing on other tests. You will be provided a receipt that you may use if you choose to file a claim with your insurance carrier. You may or may not be reimbursed by your insurance company for our services. We are unable to accept specimens from Medicare and Medicaid patients. You have the option of having your test performed at the laboratory of your choice. Please acknowledge that you have read the above information.
